Biography:

Connor is a highly skilled and experienced designer with a diverse background in Graphic Design, CAD, and Digital Fabrication. Connor has an HND in Visual Communication and an HND in 3D Design: Product Design, as well as a Digital Media Diploma and a BSc in Product Design and Innovation.

With a strong foundation in both traditional and digital design techniques, Connor has worked in a variety of roles, including as a Graphic Designer, an Industrial Designer and Studio Technician. His focus is to demonstrate the skills that allow designers to adapt between different fields.

Speaking Topics:

- Design Discipline Agnostic: How to Use the Same Process Across Different Design Disciplines
- Navigating the Boundaries of Design: Strategies for Successfully Working Across Disciplines
- The Power of Transferable Skills: How to Leverage Your Experience Across Multiple Design Fields
- Design Thinking for the 21st Century: Techniques for Innovating Across Disciplines and Industries
- Cross-Disciplinary Collaboration: Best Practices for Working Effectively with Other Design Professionals
